Experience

Application Development Experience

MARCH 2023

Tattoo Dojo - Node.js, Express, React, PostgreSQL, Prisma ORM

- Collaborated with a cross-functional team of designers and developers to build a responsive site using Node.js on the backend and React on the frontend.
- Implemented CRUD operations to manage data in a PostgreSQL database, and utilized the Prisma ORM to simplify database operations.
- Optimized site performance by reducing page load time by 25% through implementing new features and optimizing existing ones.

MARCH 2023

ANIMOB - [Gitlab](https://gitlab.com) - FastAPI, React, Python, Javascript, MongoDB

- Leveraged MongoDB to store and manage semi-structured data, and optimized database performance through efficient indexing and query optimization techniques.
- Collaborated with a team of developers to ensure the project was delivered on time and to the required specifications.
- Designed and implemented a full-stack web application using FastAPI as the backend and React as the frontend.

JANUARY 2023

Car Car - [Gitlab](https://gitlab.com) - Django, React, Python, Javascript, SQL

- Collaborated with a team of developers to develop a full-stack web application using Django as the web framework and React for the frontend.
- Utilized SQL to manage the database and built REST APIs for handling data operations.
- Created dynamic and interactive user interfaces using React components and hooks for state management, resulting in an intuitive and user-friendly interface.

Professional Experience

APRIL 2015-OCT 2022

WIMM House Studios - Owner

- Produced visual solutions for clients and brands resulting in increased revenue and website traffic.
- Utilized Adobe Suites and creative editing techniques to efficiently edit visual content for client projects.
